Education

Bachelor of Science in Computer Science

California State University, Sacramento

Estimated: Spring 2020

Overall GPA: 3.0

Professional Summary

A focused and capable computer science student seeking an internship to gain professional experience to supplement education. Overall, a team player with an emphasize in leadership and competitiveness constantly seeking to learn new skills.

Skills Summary

- Java, Python, C++, (Familiar with) R, SQL, HTML
 - Modeling data using Python e.g. Numpy/Matplotlib/SciPy
 - Good analytical, communication, organizational and technical writing skills
 - Fluent in Spanish
-

Programming Experience

Scientific Computing and Simulation

2018

- Programming intensive course utilizing Python and C++ to solve mathematical problems, then modeling the data using Python's built in libraries. One course away from receiving the Scientific Computing and Simulation Certificate presented by CSUS, by completing Physics 11A and Physics 11C and other challenging courses.

GUI Interface

2018

- Group based project in java for computer software engineering course in which the aesthetic requirements (main windows) for an application called Pirex were met under a time constrained deadline implementing Scrum methodology. The use of Git was mandatory in order to receive full credit.

Word Count

2018

- Group assignment of three to develop a program that used data structures such as a binary search tree and heap to count the frequency of the words used in large text files such as a book.

Simple Calculator

2017

- Functional calculator with a graphical interface developed in Java.

Word Game

2016

- Word game in which users indicate whether the word is spelled correctly or not developed in Java.

Mini Teller

2016

- Bank teller simulation developed in Java.
-

Work Experience

Sacramento United Soccer Club

Assistant Coach

2016-2018

- Coached entry level players ages 3-8 developing fundamental skill sets and interest, through fun and games.

Construction

Drywall Hanger

2016-2019

- Completed various tasks working alongside a partner and individually in a fast-paced environment. Helped crew leader translate/communicate effectively with construction site supervisors.

Chipotle

Crew Worker

2016-2018

- Worked front end interacting with customers providing excellent service and assistance. Also, worked backend completing task such as prepping, storing, and washing dishes at an extremely high pace to meet deadline.
-

Awards and Achievements

Sacramento State Dean's Honor Roll

Fall 2016 | Fall 2018

Sacramento State Men's Soccer Team

Spring 2018
